Bio-medical waste units

†505. SHRI JAI PARKASH AGGARWAL: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether Government have taken any steps to adopt proper measure for the disposal of bio-medical waste in all the Government hospitals of the country including Delhi;

(b) if so, the details thereof, as on date; and

(c) if no, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI) : (a) to (c) Disposal of Bio-medical waste in hospitals is governed by Bio-medical Waste (Management and Handling) Rules, 1998 which are binding on all hospitals in the country. In so far as Central Government Hospitals are concerned, they are following these rules. The hospital waste is segregated and collected in the colour coded scheme bags at the collection sites in the wards/units and all hospital premises. These bags are sent to the bio-medical waste plant for further disposal through incinerators/shredders etc. as per requirement for various kind of wastes. Emissions from these incinerators are regularly checked. The authorities from Central/State Pollution Control Boards also visit the hospitals periodically, and wherever required, interact for action with the concerned officers.
